

I understand you are thinking about overturning NJs Do Not Call Law. I still receive calls on Sundays and during supper. I do not want to be called or solicited. They are calling me at my home and interrupting my family. I have the right to privacy and to be free from these calls. Please do not overturn this. They need to find other ways to market - they are welcome to send emails - I can easily delete those and they can use the title to entice people to open that email. They can also mail me. I'm fine with that. BUT DO NOT CALL ME!
